Website: h4ni.com

An accomplished software engineer with a proven track record of delivering high-quality, scalable solutions. With a passion for innovation and a meticulous approach to problem-solving, I consistently strive to exceed expectations and drive impactful results.

Experience

Jan 2023 – Present **Software Developer / Python Developer**

Atarev Software Solutions, Remote

- Reduced average scraping time from 150 sec to 30 sec (-80%) by using Requests instead of Selenium.
- Utilized advanced techniques such as handling complex requests, working with sessions and cookies management, and bypassing CAPTCHA challenges.
- Designed and maintained scalable web scraping systems using TDD (Test Driven Development) environment, optimizing performance and ensuring reliable data retrieval.

March 2020 – Feb 2022 **Full-Stack Web Developer**

Waqf Al-Imam Al-Shaatibi, Hatay/Turkey

- Designed, developed, and maintained the foundation's website, employing cutting-edge frameworks and technologies to create a visually appealing and user-friendly online presence that effectively communicates the organization's mission and goals.
- Built CMS (Content Management System) from scratch using PHP and MySQL.

Dec 2019 – Mar 2020 **Frontend Developer**

Academic Trainers Union, Hatay/Turkey

- Reduced the initial loading time by 2.5 seconds for the landing page and 2 seconds for the other pages.
- Maintained and upgraded the code that was developed by another programmer

Education

Oct 2021 – Present **Bachelor's Degree of Computer Engineering**

Ankara University

- Current GPA: 3.8
- Expected Graduation Date: June 2025

May 2020 – May 2021 **Scholastic Aptitude Test (SAT)**

American Assessment Test

- Math: 800/800, Total: 1430
